

## The Panda 4kW AC RV Generator

Introducing the **Panda 4kW AC RV Generator** – your trusted companion for all your RV adventures! Say goodbye to traditional AC generators and hello to innovation. Unlike old-school generators, the Panda 4kW AC uses cutting-edge technology to produce AC power efficiently.

How does it work? Well, instead of constantly running at full speed, the **Panda 4kW AC RV Generator** adjusts its RPM to match your power needs. This means it consumes less fuel, makes less noise, and needs less maintenance – giving you peace of mind while you enjoy the great outdoors.

Experience reliable power on your RV trips with the **Panda 4kW AC RV Generator**. It is not just a generator; it is a significant change for your RV lifestyle.

### MUST HAVE FEATURES:

Discover the heart of the **Panda 4kW AC RV Generator** – its long-lasting, efficient Kubota water-cooled two-cylinder diesel engine. This powerhouse is directly linked to a PMG Alternator, ensuring reliability and longevity for your RV adventures.

Say goodbye to constant refueling and maintenance headaches! Our hybrid system intelligently manages generator runtime, saving you fuel and minimizing maintenance needs.

Plus, it's small, light, and whisper-quiet, so you can enjoy the serenity of nature without disruption.

We have got you covered with our 5-year limited warranty, giving you peace of mind on every journey. And with seamless power supply options, including generator, shore power, and inverter, you will never be left in the dark.

Experience convenience at your fingertips with automatic

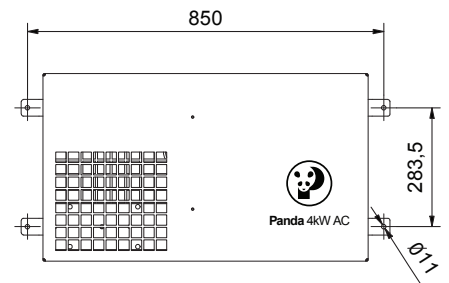

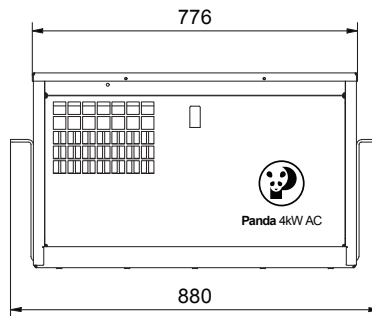

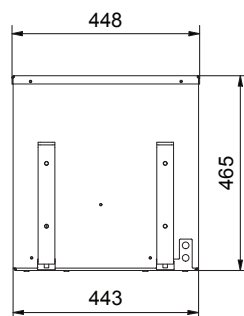

generator start, available in multiple configurations to suit your needs. Whether you are exploring the open road or relaxing in a national park, rest assured that our generator meets all noise requirements and is California CARB compliant.

Welcome to a new era of RV power – where reliability, efficiency, and tranquility come standard with the **Panda 4kW AC RV Generator**.

## Panda 4kW AC RV Generator Specifications

<b>GENERATOR</b>	
Generator Type	Perfect Power
Generator Family	Hybrid RV
Generator Version	RV (Recreation Vehicle)
Area of Application	Vehicle
Frequency [Hz]	60 Hz or 50 Hz Versions
Generator Manufacturer	Fischer Panda GmbH
<b>ELECTRIC INFORMATION</b>	
<b>60 Hz Version</b>	<b>50 Hz Version</b>
Output power: 4 kW	Output power: 4 kW
Voltage: 120V AC	Voltage: 230 V AC
Current (Amp): 33,3	Current (Amp): 17,4
Frequency: 60 Hz	Frequency: 50 Hz
<b>DIMENSIONS</b>	
Dimensions L * W * H :	Length: 880 mm
	Width: 448 mm
	Height: 465 mm
<b>WEIGHT</b>	
Generator Set:	123 kg / 270 lb
Inverter:	plus inverter 7 kg / 15 lb (for AC Version 230V)
	plus inverter 9 kg / 20 lb (for AC version 120V)
<b>OPERATION</b>	
Operation Altitude:	3050 mtr / 10.000 feet without any derating
Operation Temperature:	40°C / 104°F
Sound Levels:	72 dbA: 10 feet   60 dbA: 50 feet (compliant with park regulations)
Generator consists of:	integrated: radiator, fan, silencer, fuel pump external: inverter
